

2008 - 2009

Anacortes School District
ADVERSE WEATHER
INFORMATION

Please keep this card in a safe, convenient location
for future reference throughout the snow/ice season.

ADVERSE WEATHER
BUS ROUTE CHANGES

During the icy and snowy weather, schedules for schools and buses may
change. For announcements on school or bus schedule changes, call our
adverse weather voice mailbox at 293-1201, mailbox number 423 (or ICE) or
listen to one of the following radio stations. Adverse route information may also
be accessed on the internet at http://schoolreport.org or www.asd103.org.

Table with 2 columns: FM Stations and AM Stations. Lists radio stations like KSLY, KUBE, KPLZ, KZOK, KEZX and AM stations like KWLE, KBRC, KAPS, KOMO, KIRO, KJR, KING, KIXI, KVI.

Radio stations may broadcast one of the following messages:

SCHOOLS CLOSED: School is not in session. All student activities are
cancelled for one day only. (260 day employees report to work at the normal time.)

LIMITED BUS TRANSPORTATION: Schools are in session. Buses will travel
adverse weather routes. Buses will travel at slower speeds.

SCHOOLS ONE (or TWO) HOURS LATE: Schools begin 1 (or 2) hours late.
Buses will make stops 1 (or 2) hours later than normal. School employees report
to work the normal time. Buses will travel adverse weather routes. No out of
district transportation. No buses travelling off island.

If no messages are broadcast, schools will operate as normal and buses will
make stops at the regular scheduled times. Please do not call the radio stations
for information.

Please note that on any day that the roads are slick, buses may arrive at bus
stops slightly later than normal because they travel at slower speeds.

(See reverse side for adverse weather bus route changes.)

In case of Guemes Island Ferry emergency shutdown, please call KWLE
(1340) radio station for information.

STUDENT SAFETY CONSIDERATIONS
DURING ADVERSE WEATHER

- 1. Students must stand well away from the street while waiting for the bus. Cars
may slide on slick roads and injure students who are too close to the roadway.
2. Wait safely at the bus stop. Throwing snow or ice may injure other students
and may cause an accident if thrown at passing cars.
3. Use the handrail when getting on and off the bus. Bus steps may be slick.
4. Dress warmly. Buses may arrive at the stop a little later than usual because
of slower driving speeds.

- 1. Padilla Heights Rd. Students catch bus at Padilla Heights Rd.
and Reservation Rd.
2. Satterlaee Rd. from Gibraltar to Christensen Students catch bus at Satterlee &
Christensen
